INNOVATION LAB - R&D INITIATIVES

Pioneering the future of cybersecurity and digital forensics

Quantum-Resistant Forensics Framework

Research and development of forensic methods resistant to quantum computing attacks

2025-2027

Prepare forensic community for post-quantum cryptography era

AI-Driven Cyber Threat Intelligence Platform

Comprehensive threat intelligence platform powered by advanced AI/ML

2025-2026

Revolutionize threat detection with predictive capabilities

Immersive Cybersecurity Training Metaverse

Virtual reality training environment for hands-on cybersecurity education

2026-2028

Transform cybersecurity education through immersive experiences
